EP&H Technologies, LLC., supports the Aerospace and Defense industries with expertise in technical/design Support, manufacturing of electro-mechanical assemblies, electronic assemblies, cable/wire harness assemblies and pneumatic/hydraulic test sets. **Our management team has over 60 years' experience.** EP&H Technologies provides expertise in project management and mil-grade parts procurement, including difficult to source items and sourcing equivalents. We specialize in high mix, low volume, as well as high volume program requirements.

Located in deep South Texas, our cost structure is extremely competitive, with resources readily available to adapt to changing program needs.

EP&H Technologies supports military programs across all platforms, working with prime government contractors including **Lockheed Martin Aeronautics, Lockheed Martin Rotary and Mission Systems, BAE Systems and SCI Technology.** EP&H Technologies has developed and manufactured test equipment in support of the **F-16, F-22, C-5, C-130, F-35** as well as the **Bradley Fighting Vehicle.**

KEY CAPABILITIES

- Box Build/Breakout Boxes
- IP/ATEX Rated Assemblies/Test Boxes
- Adapter Cables – Factory Automated Circuit Test (FACT Adapters)
- Ruggedized Cables - Specialty Jackets/Conduits
- Mil-grade Cables/Harnesses; Wire/Fiber/Ethernet/RF/Video
- All Mil Connector Types; D38999, High Density, Coax thru Quadrax, 1553b
- Hydraulic/Pneumatic; Vacuum Test, PTMS/Fuel Test, PAO/Fill/Flush Kit, High Pressure Nitrogen Control Set
- Custom Labeling/Serialization
- Build-to-Print – Design/Documentation Capability
